APPARATIVE INTERMITTING COMPRESSION THERAPY

Known also as mechanic lymphatic drainage or presotherapy.

Plays an essential role in our organism. The lack of exercise / movement & a bad diet can be dangerous for the natural flow of lymph. This way, metabolic process and others are reduced. In a case of a metabolic disorder, not enough waste is disposed of & an alteration occurs to the acid-base balance. Also, the lymph turns more thick. All of this will cause side effects in the fat burning because more. Adipose cells accumulate inside the fat deposits. These are the reasons why it's very important to take care of our Lymphatic system. The Lymphatic drainage reactivates the blocked metabolism.

TREATMENT AND EFFECT:

In our Institute, we apply a mechanic Lymphatic drainage. The client puts on special trousers which have pressure chambers on the inside part which fill with air. This produces a pressure wave that stimulates lymphatic vessels and improve circulation & blood flow. A regular use activates the Lymph and it is considered to be an excellent prevention & treatment against cellulite. It also supports your diet because it prevents the formation of skin tissue, heavy legs feeling, spider & varicose veins. Another area of application is in the treatment of lymphedemas & lipids.

If you find yourself weak, exhausted & with low energy; if you cannot seem to Slim down or if you have cellulite in your belly, legs or bottom, these can be the first symptoms of a metabolic disorder. In this case you should take measure. Our expert team apply Compression therapy, recognized for its excellent medicinal properties, supporting the activation of your metabolism. The results will surprise you!

Wake up your metabolism, burn some fat & improve your health! Make an appointment!
